

Fotona[®]
choose perfection

LightWalker[®] Max

The Ultimate Laser Platform for *Dentistry* + *Aesthetics*

Expand your practice.
Empower your patients.
Unlock new possibilities.

Built for Dentists and Patients Who *Want More*

When you're ready to expand, there's no substitute.

Fotona LightWalker® Max is ideal for dentists who:

- Already offer minimal facial aesthetics and want to broaden services
- See rising demand for cosmetic and wellness treatments
- Invest with a vision for practice growth and patient loyalty

Beyond Dentistry. Beyond *Expectations*.

Patients are asking for more. Fotona LightWalker® Max makes it possible.

Fotona LightWalker® Max combines world-leading dental and aesthetic technologies in a single system. It's perfect for practices wanting to expand into new treatment options.

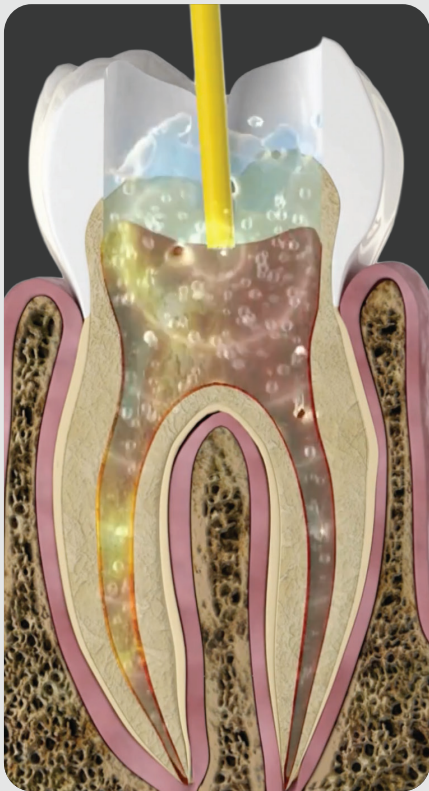

From minimally invasive treatments to advanced aesthetics, Fotona LightWalker® Max helps practices grow with confidence while delivering the care patients already expect from their dentist.

One Platform. Unlimited *Potential*.

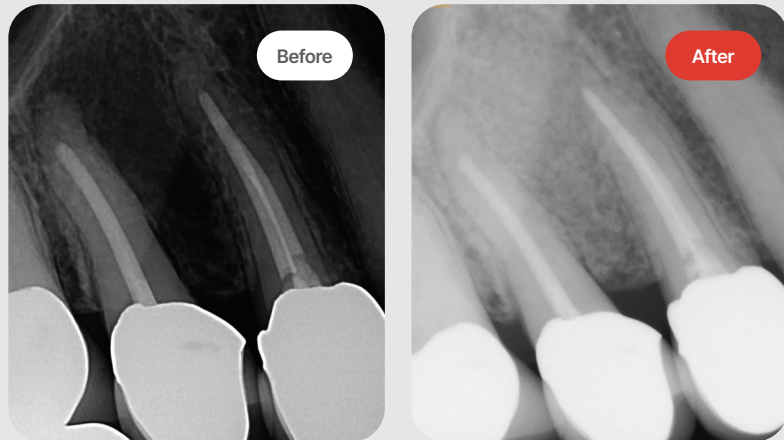

Dentistry

- Laser-assisted extractions
- Crown and veneer removal
- Periodontics
- Endodontics

See the complete list
of treatments online.

Comprehensive dentistry and aesthetics without compromise.

Fotona LightWalker® Max expands your practice
into high-value treatments across two specialties.

Aesthetics

- Full facial aesthetics
- Skin resurfacing & wrinkle reduction
- Fotona4D® non-surgical laser facelift
- Fotona SmoothLase® & Fotona LipLase®

● Fractional Peel

Courtesy of Dr. Miguel Angel Chavarria

Fotona4D® delivers a complete non-surgical
laser facelift, including tightening, volumizing,
and rejuvenating, with little to no downtime.

● Skin Resurfacing

Power. Precision. *Possibility.*

Technology, design, and tools to expand your practice with confidence.

Technology at the Core

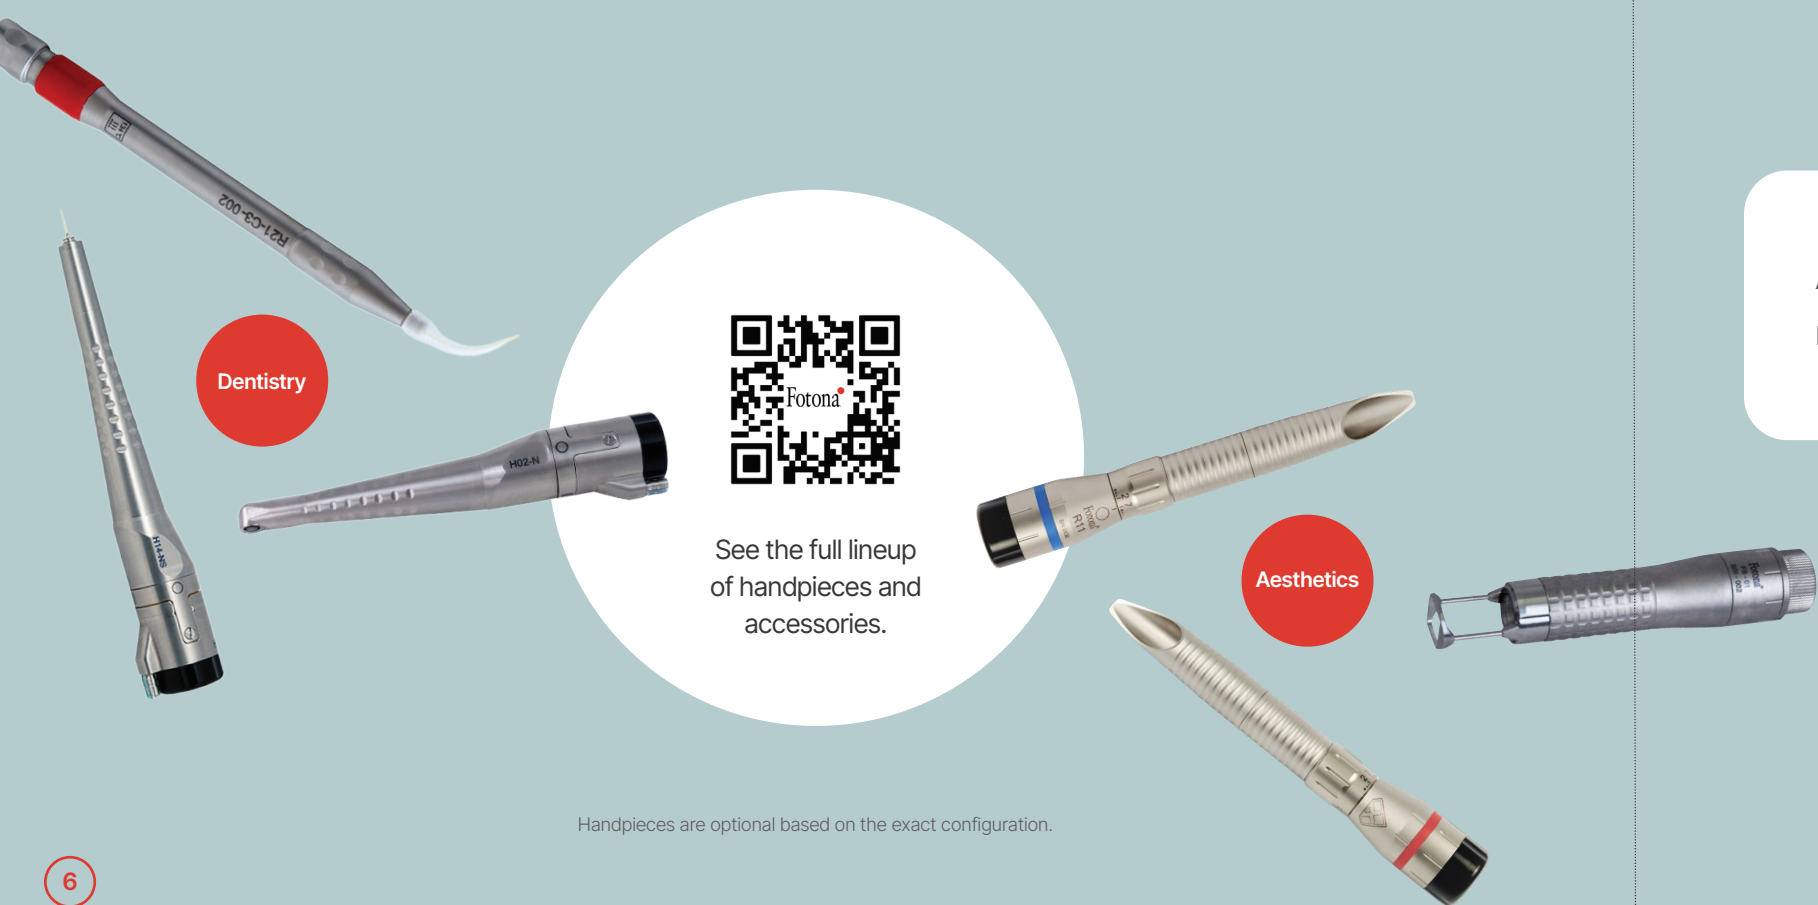

Dual Er:YAG and Nd:YAG wavelengths, powered by Fotona® signature modes — QSP, VSP, Fotona SMOOTH®, FRAC3®, Fotona PIANO® — deliver unmatched versatility with minimally invasive results.

Designed for the Way You Work

Innovative design, intuitive touchscreen presets, weightless OPTOflex® arm, optional wireless footswitch, and heated water reservoir. Every detail is built for seamless integration and patient comfort.

Tools for Every Specialty

A full suite of handpieces supports dentistry, aesthetics and wellness. Top-Hat beam profile optics provide consistent safety and precision. Fotona MatrixView® enhances aesthetic treatment safety with real-time temperature monitoring.

Handpieces are optional based on the exact configuration.

All the performance you need in one system.

The Numbers *Make Sense*

Rising demand and cash-based services make growth achievable.

- Increasingly diverse patient base is open to medical aesthetics
- Existing patient trust makes expansion into aesthetics seamless
- Ability to offer combination treatments that enhance both dental and facial aesthetics
- Diversify revenue with aesthetic procedures not tied to insurance

The most versatile
way to turn one
chair into a
growth engine.

One system,
multiple revenue
streams.

Just a few aesthetic
cases per week
can offset monthly
financing costs.

Technology Is Only *Part of the Story*

Training and marketing support from the experts.

Every Fotona LightWalker® Max comes with access to:

- Online and in-person clinical training
- Ongoing workshops and programs
- Marketing and practice support resources
- Best-in-industry maintenance and service program

From Smile to Skin With *One Trusted Provider*

Patients stay loyal when you meet all their needs.

- With Fotona LightWalker® Max your patients can:
- Feel comfortable with minimally invasive and highly effective care options
 - Save time by consolidating treatments in one location
 - Trust a familiar provider for both dental health and aesthetics

Imagine What's Possible in Practices Like *Yours*

Ways to optimize your investment in Fotona LightWalker® Max:

Expansion

- From a few aesthetic service lines to a complete aesthetic suite
- Keep more patients in-house
- Build reputation as innovative industry leader

Growth

- Turn downtime into demand
- Fill slow days with high-value services
- Increase chair utilization
- Attract new patients through aesthetics

Validation

- Add services patients already request
- Strengthen loyalty
- Differentiate in competitive settings

Expand *Beyond* *Dentistry*
